

4-H SCHOLARSHIP POINTS

(Subject to Available Funds)

You must turn in at least one complete project report with a score of 70 points or better, and you must have attended more 4-H club meetings than you missed, as well as earn 100 scholarship points in order to receive a partial scholarship to an event. You earn points by attending county and above level activities and events, not club level. For example, you are expected to do a demonstration and community service project with your club, which will not accrue any points, but if you compete at county Events or attend County 4-H Council meetings, you can earn points. NOTE: Scholarship points cannot be used for State 4-H Congress, unless you have won at county and district events.

NAME: _____
